

Making Equal Groups

Reasoning and Problem Solving

Farmer Hamilton and Farmer Connolly are making hay bundles.

Who made equal groups?

Possible answer:

Farmer Connolly has because she has 3 groups of 3 hay bundles.

Farmer Hamilton's look the same but they are not.

Use concrete materials or pictures to complete the questions.

Jemima has 4 equal groups. Show me what Jemima's groups could look like.

Kim has 3 unequal groups. Show me what Kim's groups could look like.

Children will show 4 groups where there are the same amount in each group for Jemima and 3 groups that are unequal for Kim.

Encourage children to do this in more than one way.
