

Which way do rows and columns go?

Columns go up or down

Rows go across

There are apples in each row.

There are rows.

There are **10** apples in each row.

There are **2** rows.

**There are 2 counters in each column.
There are 6 columns.**

Draw the array.

**There are 2 counters in each column.
There are 6 columns.**

Draw the array.

How many counters do you have altogether?

Complete the calculations.

**There are 10 counters in each row. There are 4 rows.
Draw the array. Then fill in the missing numbers.**

$$\square + \square + \square + \square = \square$$

Complete the calculations.

There are 10 counters in each row. There are 4 rows.

$$\boxed{10} + \boxed{10} + \boxed{10} + \boxed{10} = \boxed{40}$$

Use the buttons to make an array representing
 $2 + 2 + 2 + 2 + 2 = 10$.
