

Science task - Tuesday 12th May 2020

Start by having a look at the video attached:

<https://www.youtube.com/watch?v=LisRMVPAwOc>

In the video, some sunflower seeds are planted. It would be great if you could take part in the challenge.

If you can't get any seeds to grow, you could try growing a carrot top. Cut the top from a carrot and put it in a saucer of water on a windowsill. Make sure that the water stays topped up and watch it closely for the next week to see what happens.

Now watch:

<https://www.youtube.com/watch?v=G8kYhHxSOag>

Write a list of all of the things that you can make with potatoes.
