

Maths worded problems - 15.5.20

What is half of 10? _____

What is half of 8? _____

What is half of 4? _____

What is half of 14? _____

Answer the rest of the questions by creating a drawing to support your workings out.

E.g.

A fish tank has 6 fish in. Half of the fish are green. How many of them are green?

There are 3 green fish.

Over to you

a) This morning, Nelson made 8 chocolate cupcakes. Miss Jones ate half of them for her lunch. How many are left?
