## Check your understanding Questions

Is $10 \%$ larger or smaller than $1 / 5$ ? Explain your answer with a picture or calculation.

Write the missing percentage in each of the bar models:

| 60 children |  |  |
| :---: | :---: | :---: |
| Walk | Cycle 50\% | Drive |
| $20 \%$ |  | $?$ |

| 24 children |  |
| :---: | :---: |
| Crisps | Fruit |
| $75 \%$ | $?$ |

Now write the numbers of children in each category.

Write $10 \%$ of each price, then calculate $40 \%$ of each price.

| $£ 3.40$ | $£ 12.00$ | $£ 9.90$ | $£ 5.10$ |
| :--- | :--- | :--- | :--- |
