Maths Task - 8.6.20

Last week we began looking at adding more and counting on. Today we are going to continue looking at the skills and consolidating our understanding.

As you work through the questions, you need to show your workings out on the number line and on the tens frame (use two different colours). For the last questions, I have only included number lines but if you want to still use a tens frame to support you, you could draw your own ones out.
