

Fluent in Five

Daily Arithmetic Practice
Week 1

Year 5

Year 5 - Week 1

Please note, we always recommend reading 'Your Guide to Using Fluent in Five' before using these resources with your class.

This week in a nutshell

This is the first week children will be exposed to Fluent in Five. As such, the number of questions has been reduced to 4 (rather than 5 from week 3 onwards).

Mental methods this week focus on those which should be secure from Year 4, including:

- Adding a three digit number and tens.
- Simple mental multiplication for the 7 times tables.
- Finding unit fractions of numbers.

Multiplication and division questions which may need to be supported with either the formal or informal written method or jottings are included, with the 7 times table as their base. This week written addition questions include exchanging in one column only.

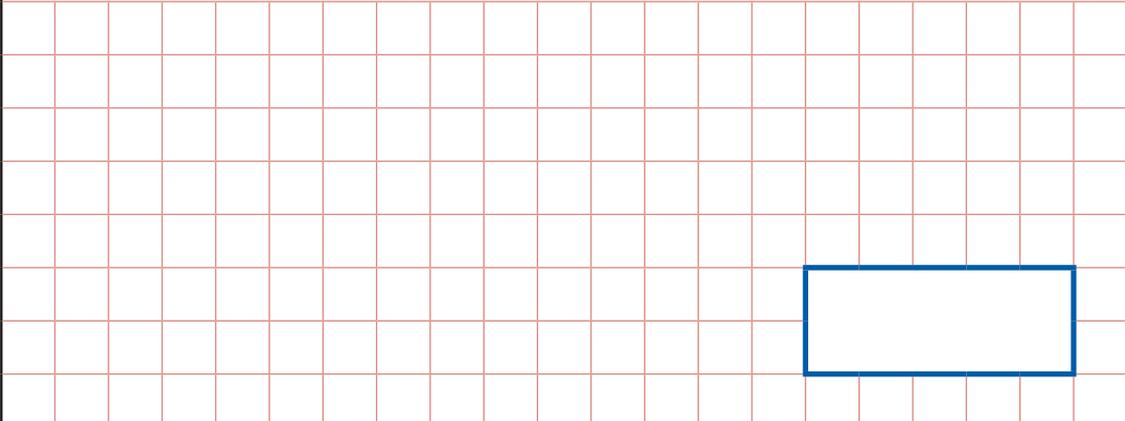

For this week only, all questions are presented in the traditional format of 'question = answer space'.

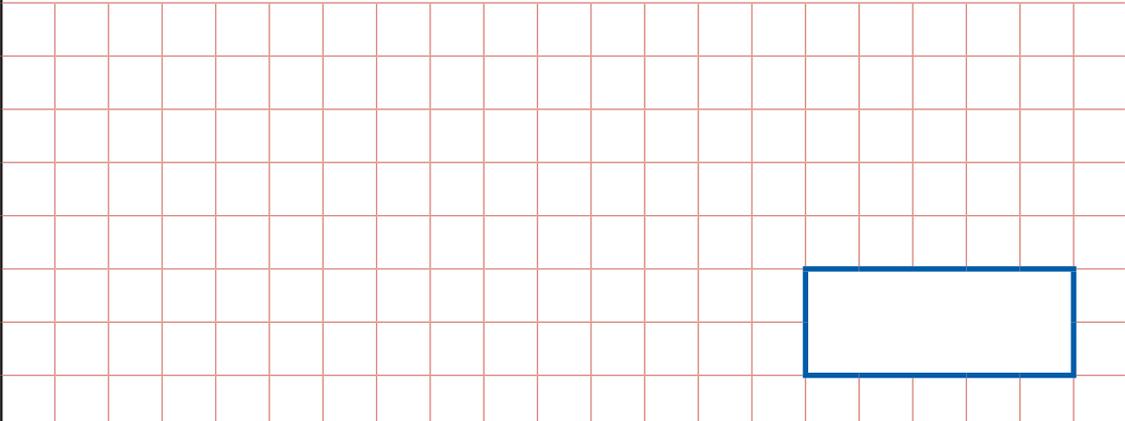

No two mark questions are included this week.

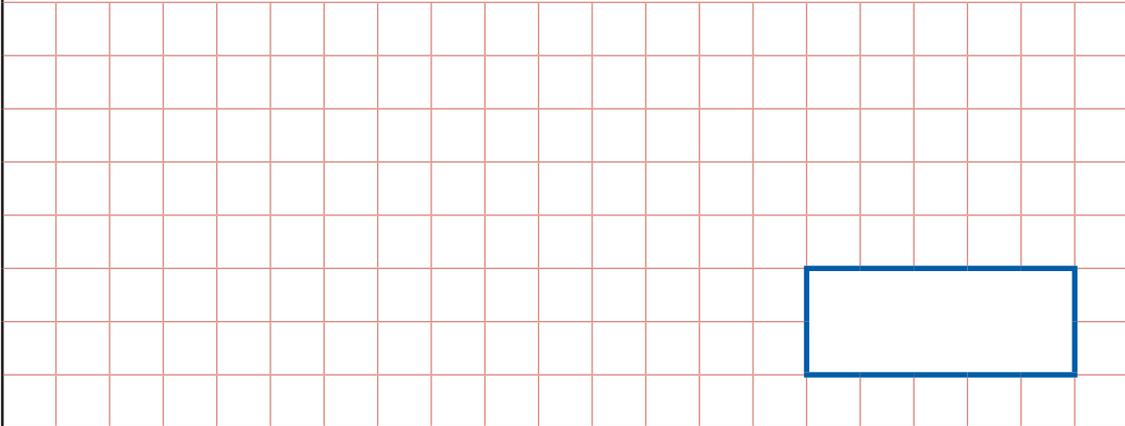

Name.....

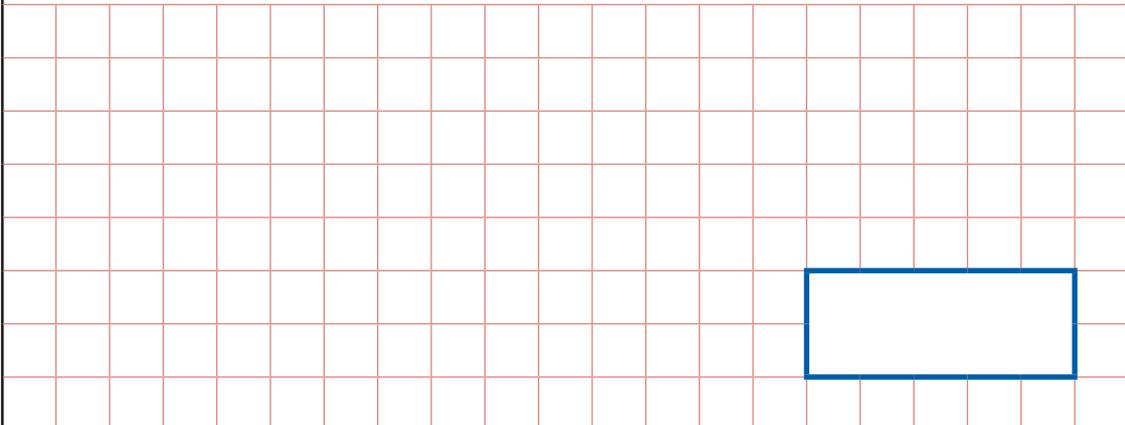

Date.....School.....

Class.....Score.....

1	$186 + 70 =$ 	<input data-bbox="1388 1209 1468 1288" type="checkbox"/> 1 mark
---	---	--

2	$5,667 + 3,334 =$ 	<input data-bbox="1388 1870 1468 1948" type="checkbox"/> 1 mark
---	---	--

3	$3 \times 7 =$ 	<input data-bbox="1390 705 1469 779" type="checkbox"/> 1 mark
---	--	--

4	$161 \div 7 =$ 	<input data-bbox="1390 1328 1469 1402" type="checkbox"/> 1 mark
---	--	--

Answer Sheet

Remember, (M) is written next to those questions you should have tried to solve mentally first. (W) means a written method is usually more efficient for this question.

1. $186 + 70 = \mathbf{356}$ (M)

2. $5,667 + 3,334 = \mathbf{9,001}$ (W)

3. $3 \times 7 = \mathbf{21}$ (M)

4. $161 \div 7 = \mathbf{23}$ (W)
