Cardboard Tube Rocket

Supplies

- Long cardboard tube
- Silver foil
- Tissue paper
- Brightly coloured card
- Brightly coloured paint
- PVA glue
- Scissors

– Sticky tape

1 First paint the cardboard tube in a bright colour, then leave to dry.

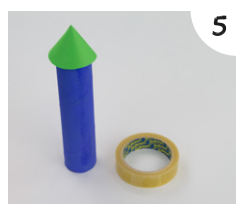

2 For the top of the rocket, choose a different coloured card. Then draw around a small circular object, such as a cup, onto this.

3 Cut out the circle. Then also cut a line going from the outside into the centre of the circle, stopping once you reach the middle.

4 Roll the circle into a cone shape, then secure using sticky tape.

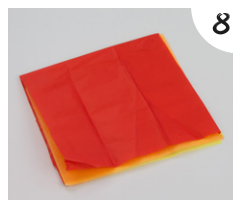

5 Stick two pieces of tape on the inside of the cone. Then stick the cone onto the top of the cardboard tube.

6 Now make some windows for the rocket using tin foil. To do this, draw round a small circular object onto the foil three times.

7 Next cut out the circles of tin foil and stick them onto the rocket using PVA glue.

8 For the flame, take some pieces of tissue paper and place them on top of each other in layers.

9 Pick up the layers of tissue paper and cut strips vertically into them, ensuring the cuts do not go right to the top.

10 Finally, gather the sheets of tissue paper together at the top, then secure and strengthen this by sticking tape around it.

11 Use sticky tape to attach the flame to the bottom of the rocket.

Cardboard Tube Rocket

Supplies

- Long cardboard tube
- Silver foil
- Tissue paper
- Brightly coloured card
- Brightly coloured paint
- PVA glue
- Scissors
- Sticky tape

Step 1. First paint the cardboard tube in a bright colour, then leave to dry.

Step 2. For the top of the rocket, choose a different coloured card. Then draw around a small circular object, such as a cup, onto this.

Step 3. Cut out the circle. Then also cut a line going from the outside into the centre of the circle, stopping once you reach the middle.

Step 4. Roll the circle into a cone shape, then secure using sticky tape.

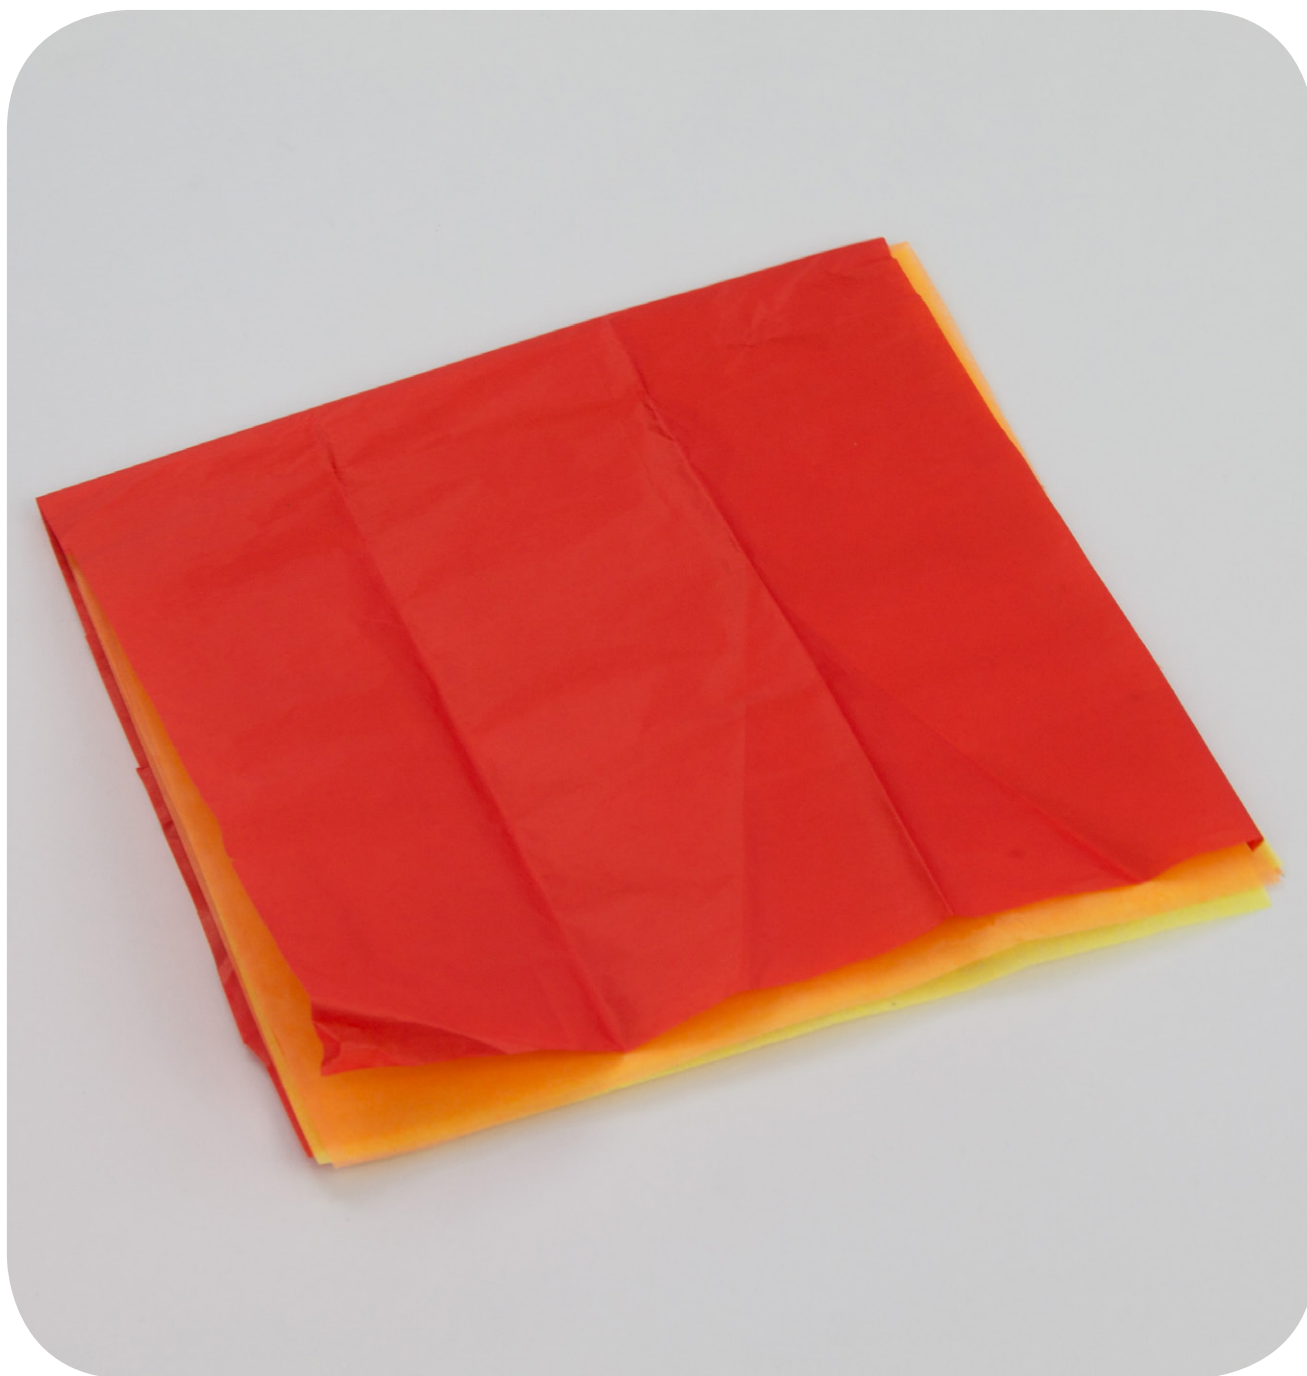

Step 5. Stick two pieces of tape on the inside of the cone. Then stick the cone onto the top of the cardboard tube.

Step 6. Now make some windows for the rocket using tin foil. To do this, draw round a small circular object onto the foil three times.

Step 7. Next cut out the circles of tin foil and stick them onto the rocket using PVA glue.

Step 8. For the flame, take some pieces of tissue paper and place them on top of each other in layers.

Step 9. Pick up the layers of tissue paper and cut strips vertically into them, ensuring the cuts do not go right to the top.

Step 10. Finally, gather the sheets of tissue paper together at the top, then secure and strengthen this by sticking tape around it.

Step 11. Use sticky tape to attach the flame to the bottom of the rocket.
