

A Day at the Zoo

I can use fronted adverbials.

An **adverbial** is a word or phrase which gives us additional information about the time, place or manner of the **verb**.

Underline the **verb** in red and the **adverbial** in purple.

Example

I visited the zoo for my school trip.

- 1) On the coach, we sat.
- 2) As we arrived at the gates, people were chattering.
- 3) First of all, we visited Butterfly Paradise.
- 4) Into the dark entrance of the reptile house, I tiptoed.
