

Toilet Roll

Bird

* I've based this on a Hummingbird, you can use any bird you like, but you might need a photo to look at?

This has been an
"art jumpstart"
by Darrell Wakelam

1 - Cut a toilet roll tube in half lengthways, keep one half and cut the other like this ...

2 - Fix the body shape on ...

then cut the other part in two diagonally. Use one part for the head and the other for a tail.

3 - From the saved half of the tube cut a beak shape and tape it on.

4 - I often scribble over the tape ... this makes the outline clearer ...

4 - From the remaining tube make wing shapes, cut the rest into strips.

5 - Use these strips to make wing and tail feathers, save a few.

6 - From the last strips cut out thin legs, and chop out little toes ...

... attach these on.

7 - Roll up some tape or tin-foil into a ball for an eye ...

... and make a socket to hold it in.

8 - Paper mache the background to hide the tape.
