Let's check the meaning of some tricky words.

	definition
air crew	<i>people who see to your needs on an aircraft</i>
check in	<i>hand in your bags</i>
cockpit	<i>the part of the aircraft where the pilot sits</i>
co-pilot	<i>the assistant pilot</i>
life jackets	<i>blow-up jackets for a landing on water</i>
passport	<i>small book with your name and photograph inside that shows which country you come from</i>
screened	<i>checked to make sure that you are not carrying anything dangerous</i>
X-ray	<i>a photograph which shows the inside of something</i>

Now I would like you to read through
'A flight to New York' story.

Remember to sound out any unknown words and to
look out for any words with the 'u-e' or 'ew' sound in.

This is Heathrow Airport.

You can take flights to 180
different places from here.

You can drive to the airport
and leave your car in the
huge car park.

First, you must check in your bags.

Then you must show your passport.

Next, you are
screened by X-ray.

This is to keep us
all safe.

The aircraft is huge. You have to go up some steps.

The air crew show you the life jackets and tell you the rules for a difficult landing.

You put on your seat belt and then the aircraft takes off.

Stewards come round with food and drinks on a trolley.

You can have tea or coffee, or a cool drink with ice cubes in it.

Then you have a hot meal such as stew with rice.

This is the cockpit.
The pilot and the co-pilot sit here.

On the flight, you
can read to keep
yourself amused.

You can listen to a
few tunes, or watch
a film.

Or you can just look
out of the window.

The sky looks bright
blue and the clouds
are white and fluffy.

At the end of the flight, the aircraft lands on the runway.
This aircraft is landing in New York in America.

You go down the
steps and collect your
bags.

Now you can go and
explore New York.
