Today we are going to answer some comprehension questions about 'A flight to New York'.

The story is still attached, so make sure you look carefully in the text to find the answers.

You will have two different types of questions.

- 'Find It' - you need to turn to the page, read the question and find the answer.
- 'Prove It' - you need to turn to the page, read the question, find your evidence and explain why.

Page 9 (Prove it): Why do lots of people go to Heathrow Airport?

Page 12 (Prove it): What do you wear while the aircraft takes off?

Page 12 (Find it): What do the stewards use to bring you drinks and meals?

Page 14 (Find it): How can you keep amused during the flight?

Page 14 (Find it): What might you see from an aircraft window?

Page 16 (Prove it): What must you remember to do before you leave the airport?

This is Heathrow Airport.

You can take flights to 180 different places from here.

You can drive to the airport and leave your car in the huge car park.

First, you must check in your bags.

Then you must show your passport.

Next, you are
screened by X-ray.

This is to keep us
all safe.

The aircraft is huge. You have to go up some steps.

The air crew show you the life jackets and tell you the rules for a difficult landing.

You put on your seat belt and then the aircraft takes off.

Stewards come round with food and drinks on a trolley.

You can have tea or coffee, or a cool drink with ice cubes in it.

Then you have a hot meal such as stew with rice.

This is the cockpit.
The pilot and the co-pilot sit here.

On the flight, you
can read to keep
yourself amused.

You can listen to a
few tunes, or watch
a film.

Or you can just look
out of the window.

The sky looks bright
blue and the clouds
are white and fluffy.

At the end of the flight, the aircraft lands on the runway.
This aircraft is landing in New York in America.

You go down the steps and collect your bags.

Now you can go and explore New York.
