

# Become a Sandwich Artist

Making a sandwich is a great skill to have. It's also a great opportunity to work on your artistic skills and turn your sandwich into a work of art!

Cut out the ingredients and arrange them creatively on the slice of bread. You may use as much of the filling as you would like to. Once you are happy with your design, stick the ingredients down. Stick your sandwich up on the fridge at home to show the family your creative design.
