INTERVIEW WITH A WONAMBI.

The checker = being you at this moment has long, strong and has a cold dad. I give you a WONAMBI!

Q. How long are you band enemies?

A. Slightly longer than you. We are only 6m long but longer than you.

Q. Why do you wrap round your prey?

A. So we can catch our prey easier because we don't have vision sense.

Q. Why are your teeth so sharp?

A. The teeth are sharp because we don't have any vision so we need sharp teeth so we can eat our animals.

Q. What are your patterns for?

A. So we can hunt prey with out being seen.

Q. Why do your scales go one way?

A. Because if they go different ways I could be spotted even more.

Q. Why are your teeth mid apart?

A. So then we can be even wider and eat the best.
